

## Randomizer for Clinical Trial for iPad/iPhone

*The first ever free patient randomization application*

You can trial the '**Randomizer for Clinical Trial for iPad/iPhone**' free of charge: the first ever free patient randomization application for clinical trials can now be downloaded from the App Store.

Ideal for single-centre phase I/II clinical trials

While this version of the Randomizer **for Clinical Trial Lite** is limited to 50 patients and 2 arms, it includes a very comprehensive randomization tracking interface.

NB: a paying version with more options is also available.

### About Medsharing

Medsharing was set up in 2000. Based in France with a multidisciplinary team, it has developed expertise in 100% internet SaaS software. Medsharing has been ISO 9001:2008 certified for several years. Its EOL© software package was first developed in 2004 at the initiative of a hospital physician and has since been used in over 100 European interventional and observational studies. Some of our customer references and testimonials can be found at [medsharing.fr](http://medsharing.fr).
